

**Job Title: Hydro Operations and Maintenance Technician**

**Company: Green Highland: A Voith Company**

**Location: United Kingdom - Offices in Perth and Inverness with occasional UK-wide travel**

---

Green Highland, a leading name in the renewable energy sector, is excited to announce an opening for a Hydro Operations and Maintenance Technician. As part of our ongoing expansion, driven by our ownership under Voith, we are seeking a dedicated and skilled individual to join our team.

**About Us:**

Green Highland is at the forefront of the UK's hydropower energy sector. Our commitment to service excellence has seen us grow and diversify, offering a range of innovative and exciting services. Being part of the Voith family has further propelled our growth, providing us with the resources and support to undertake larger and more challenging projects.

**Job Description:**

As a Hydro Operations and Maintenance Technician, you will play a crucial role in the operation and maintenance of our hydroelectric systems. Your responsibilities will include:

- Ensuring the smooth operation of our hydroelectric systems.
- Performing routine maintenance and identifying any necessary repairs.
- Troubleshooting and resolving any operational issues.
- Adhering to all safety regulations and procedures.

**Qualifications:**

- Experience in a similar role within the renewable energy sector.
- Strong technical and problem-solving skills.
- Driving License is essential

**Why Join Us?**

This is a fantastic opportunity to join a company that is committed to the future of renewable energy and to the development of our team. With Voith's backing, we are able to offer diverse and challenging opportunities to our employees, as well as a competitive salary and a generous workplace benefits package.

If you are looking for a role where you want to make a real difference and grow your career, we would love to hear from you. To apply, please send your CV and cover letter to
